

# SWITCH DISPLAY CASE

Do you want to present cold and hot food flexibly in one unit according to the time of day? The Switch display case is a combination of a heatable refrigerated well and light glass enclosure. It adapts the temperature to the desired offering, and stages products attractively even in neutral mode. Whether for service, self-service or grab-and-go, the possible uses during business hours leave almost nothing to be desired, especially if space is at a premium.

## PRODUCT HIGHLIGHTS

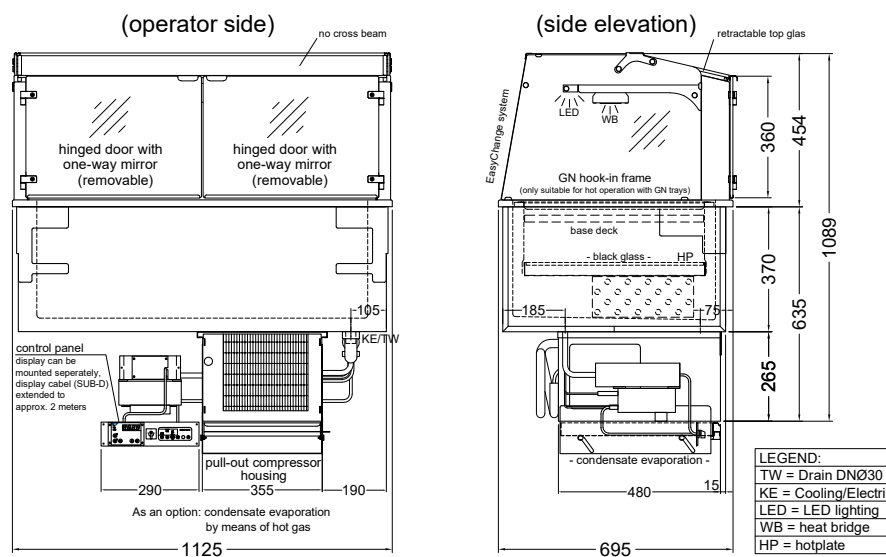

- **Easy and hygienic cleaning** due to fold-up evaporator and hotplate
- **Primary heat and infrared supporting heat** by means of pictogram control
- Attractive **additional lighting** thanks to the LED in the glass enclosure
- **Easy Change System:** easy change from a service display case to a self-service display case, as well as a slide-in glass cover on the service side for optimum stocking

## CONFIGURATION

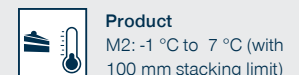

- **Height-adjustable shelves** for visually stimulating food presentation
- Hook-in frame for GN in the hot area
- Refrigeration unit in the compressor compartment that can be pulled out for maintenance
- **Multifunctional black glass presentation area** for keeping a flexible selection of food cold and hot—the right product for any time of day
- **Option:** energy-efficient, automatic condensate evaporation (hot gas) with fold-down system for the easiest cleaning of the evaporation tray
