

REFRIGERATED WINE CABINET

Pleasure chilled to the point

REFRIGERATED WINE CABINETS

Wine is not only enjoyment, wine is also culture and science. That's why we developed our refrigerated wine cabinets in collaboration with oenologists. Thanks to our co-operation with specialists in the field, we have succeeded in creating perfect storage and temperature conditions.

The optimum inclination of the bottles, minimised vibrations, constant and precise temperature control – all this guarantees you and your guests maximum wine enjoyment at the very highest level.

Combine as required, control separately

You can combine as many of these high-quality refrigerated wine cabinets as you like, either flush-mounted or as stand-alone appliances. The benefit for you: Each individual cabinet can be controlled individually.

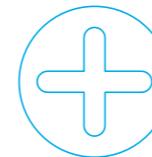

ONLINE CATALOGUE

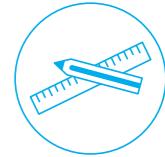

High transparency for perfect presentation

This refrigerated wine cabinet attracts your guests' attention – and provides a perfect view from all sides. Four dimmable LED light columns provide atmospheric lighting and the individually adjustable cooling technology ensures wines are kept at exactly the right temperature. Design and functionality perfectly combined.

Sophisticated shelf system

The refrigerated wine cabinets showcase your wine range in style – with flexible display systems and elegant lighting. Every drop becomes an eye-catcher and even the smallest space is optimally utilised!

Special construction

Whether customised solutions for special room concepts, individual designs or special technical requirements – we develop refrigerated wine cabinets that are precisely tailored to your needs.

Hotel Jungbrunn

The family-run hotel delights its guests with its personal charm, first-class service and unique atmosphere. With Tyrolean originality, casual luxury and a sophisticated mix of tradition and modernity, the Jungbrunn creates an impressive living world of well-being. We appreciate the trust placed in us and are delighted to be able to contribute to this special project with counters for beverages and refrigerated wine cabinets.

Accessories

Perfect presentation – full range in the smallest space

With different shelf systems and pull-outs, the refrigerated wine cabinets provide an ideal stage for presenting your range of wines. The lighting makes them an eye-catcher for your guests, who can see at a glance which fine wines are available. Use the smallest space for perfect presentation!

Grid system

Below you can find various installation systems for your refrigerated wine cabinet. These can also be combined with each other. There are **79 grid points** available in the height of each compartment. The number of grid points required in each case is given in the description of the system components.
